REACH – EU Legislation for dealing with chemicals (Regulation No. 1907/2006)

Ståldepån AB, thank you for enquiry concerning the EU Legislation; REACH, we are pleased to inform you following:

According to the REACH articles 3.3 and 3.33 sole role of the Ståldepån AB refers to being an “Importer of Articles” or a distributor. Since we are not a manufacturer nor an importer of chemical substances.

Ståldepån AB sells products containing chemicals substances, which must be registered according to REACH articles 7.1-5. However, the requirement of registration does longer apply here, because the substances have already been registered by our European suppliers or importers. Please see article 7.6 in the Regulation.

In accordance with the articles 34 and 37 of the Regulation, we fully acknowledge our obligations as a distributor, to inform our customers if they have purchased an article with SVHC by labeling the receipt.

The main business of the Ståldepån AB does not consist of any “Substances of Very High Concern” (SVHC). But this does not apply for the following alloys:
2007, 2011, 2011A, 2030, 5058, 6012, 6018, 6026, 6262 & 6262R, those alloys have a content of Lead (Pb) above the AVHC limit.
